

Orangeville, Utah.
April 25th 1944

Mr. Ed. H. Watson.
State Engineer,
Salt Lake City, Utah.

Dear sir.

During the early part of 1943 we made application through your office for the appointment of a water commissioner for the Cottonwood Creek, in Emery County, our application was denied for the reason that proper reports had not been made by water commissioners appointed by your office.

I was employed by the Board of Directors of the Cottonwood Creek Consolidated Irr. Co. to act as water commissioner, and I am herewith submitting to you some sort of a report of measurements taken during the year 1943, and am wondering if some sort of a report can be arranged from this information that I have prepared.

We would like to if possible to get ourselves in such condition that we could get a commissioner appointed by your office, if Mr. Monson or one of your deputies should happen to come to Orangeville, I wish he would call at my place as Secretary of the corporation and I feel that we could arrange a report that would meet your requirements.

Would like to hear from you at an early date if your convenience would permit.

I remain yours very truly.

O.W. Sitterud, water commissioner and
Secretary of the C.C.C. Irr. Co.
